

Emna Chebbi

DevOps Engineer | DevSecOps | Cloud & Kubernetes

Tunis, Tunisia | +216 29 009 266

emna.chebby19@gmail.com

LinkedIn | GitHub | Portfolio

DevOps / DevSecOps Engineer with hands-on experience building Kubernetes platforms, GitOps workflows, and automated CI/CD pipelines. Skilled in containerization, cloud infrastructure, security automation, and observability using modern DevOps tools. Seeking a Junior DevOps / DevSecOps / Cloud Engineer role.

Professional Experience

DevSecOps Engineer Intern — BeBouncy

Feb 2026 – Jun 2026

- Migrated multiple microservices from PM2 to multi-stage **Docker** builds, reducing container image sizes by up to **94%** and accelerating deployment cycles
- Deployed and operated a **Kubernetes** platform using **Helm** charts, and Kubernetes manifests, managed through **ArgoCD** GitOps repository workflows to achieve automated, continuously reconciled environments
- Built end-to-end **CI/CD pipelines** in **GitHub Actions** covering build, test, security validation, containerization, and deployment automation, including rollback strategies that reduced release risk
- Integrated a DevSecOps security stack (SonarQube, Trivy, Checkov, OWASP ZAP) into CI/CD workflows, embedding automated security gates across build and deployment stages
- Implemented centralized secrets management with **HashiCorp Vault** and Kubernetes Secrets, removing plaintext credentials from repositories and strengthening infrastructure workflows
- Deployed a **Prometheus / Grafana / Alertmanager** observability stack, enabling real-time monitoring and alerting across services and supporting day-to-day environment management

Software Engineer Intern — PASS Consulting Group

Jun 2025 – Jul 2025

- Contributed to enterprise software delivery within an Agile team (Jira), developing **Java** backend features and **Angular** frontends, and working with **PAM** (Privileged Access Management) solutions to support secure access control

ERP Software Engineer Intern — CSI International

Jun 2024 – Jul 2024

- Automated **QAD ERP** item-creation workflows with real-time validation and built CSV import/export tooling, reducing manual data-entry operations

Personal Projects

Secure Cloud Infrastructure Automation — Terraform, Ansible, Azure

GitHub

- Designed and provisioned Azure cloud infrastructure using **Terraform modules** and **Ansible** playbooks; practiced zero-trust networking, CI/CD automation, and IaC security scan (Checkov, Trivy) with Prometheus/Grafana monitoring

Enterprise DevSecOps & GitOps Platform — Kubernetes, ArgoCD, Helm

GitHub

- Built **Kubernetes manifests** and **Helm charts** to architect a GitOps deployment workflow with ArgoCD, as a hands-on experience in platform engineering and security integration

CI/CD Pipeline for a Spring Boot Application — Jenkins, SonarQube, Selenium

GitHub

- Practiced end-to-end CI/CD pipeline design: automated build, unit/UI testing, code quality analysis, containerization, and deployment to Kubernetes (Minikube)

Technical Skills

CI/CD & GitOps: GitHub Actions, GHCR (GitHub Container Registry), ArgoCD, Jenkins, GitOps workflows

Containers & Orchestration: Docker, Kubernetes (K8s), Helm, kubectl

Infrastructure & Cloud: Terraform, Ansible, Azure, AWS, Linux, Ubuntu, Bash

DevSecOps: SonarQube, Trivy, Checkov, OWASP ZAP, Gitleaks, HashiCorp Vault

Observability: Prometheus, Grafana, Alertmanager, Loki

Programming: Python, Java, Angular, Spring Boot, SQL, MongoDB

Education

Engineering Degree in Software Engineering — International Private Polytechnic School of Tunis

2021 – 2026

Integrated Preparatory Cycle (2021–2023) + Engineering Cycle (2023–2026)

Coursework: Cloud Computing, DevOps, Cybersecurity, Artificial Intelligence

Certifications & Languages

Certifications: Harness Certified Security Testing Orchestration Developer | Qualys Specialist: Kubernetes & Container Security | Harness Certified Continuous Delivery & GitOps Developer | Harness Certified Infrastructure as Code Management Developer | AWS Cloud Foundations | IBM Cloud Essentials | IT Specialist: Python, Databases | Machine Learning (365 Data Science)

Languages: English (C1) | French (B2) | Arabic (Native)

I hereby give consent for my personal data included in my application to be processed for the purposes of the recruitment process under the Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 (GDPR).
